BATHROOM SHOWER ENCLOSURES

QUALITY PRODUCTIVITY FLEXIBILITY

Durovin was established in China and Germany in 2004.

Within the last decade we have expanded our operations to become a leading manufacturer of bathroom solutions, with a diverse range of products including shower enclosures, shower trays, bathtubs, whirlpools, bathroom furnitures and wash basins.

At the heart of Durovin is the desire to be the best. It is Durovin's vision to lead and innovate in the sanitary industry.

To design and manufacture top quality products which offers choice for all markets. Quality, productivity and flexibility are the key for Durovin.

As a dynamic company we exert ourselves for providing a tailor-made manufacturing service from design concept through to cost-effective production.

We look forward to cooperating with you.

Errors & omissions excepted.
All measurements in mm.

GLASS TYPE

All our enclosures feature toughened safety glass which is strictly tested in accordance with DIN EN 12150, DIN EN 14428.

Toughened glass is processed by controlled thermal or chemical treatments to increase its strength compared with normal glass and is less likely to cause injury when broken.

In our company, there are a wide variety of glasses for the customers to choose to meet their individual requirements:

1. Clear glass
2. Frosted glass
3. Artistically frosted glass
4. High quality chrome decors glass

HIGHTEC NANO COATING

All glass surfaces have a non-smooth finish which can attract the build-up of particles.

The NANO coating provides an invisible protective film which seamlessly seals the surface to ensure this build-up does not bond to the glass and the glass retains its optical clarity for lasting sparkle.

This has the added benefit of greatly reducing the frequency of cleaning and is available on both sides of the glass for all our shower enclosures, doors and bath screens.

According to the market feedback, most of the customers choose the glasses with NANO coating

COMBINATION VARIETY

- We offer a wide variety of options on standard size of glasses, whether length, width or height.
- Besides of our standard sizes, customized dimension could be also available by request.
- Our shower enclosures are equipped with different thickness of glasses up to 10mm to best suit your unique requirements.

ADAPTABILITY

- With the use of an elegant notch cut, dwarf wall or a sloping angular ceiling you can truly fit your shower enclosure to any awkward space.
- Every enclosure of us is fitted with an adjustment to enable proper installation.

FIXTURES AND SPARES

- All enclosures have been beautifully designed using only the best of materials, no matter handles, frames, hinges or brackets.
- Selected enclosures are supplied with an additional bracing bar for extra support to achieve more strength and safety.

DOOR AND SEAL

- All doors feature adjustable wall profiles to compensate for out-of-true walls and have micro adjustment features for fine tuning to obtain a perfect fit and operating action.
- All doors are fitted with full height magnetic seals to prevent water leakage, applied on all types of shower enclosures with whether sliding, hinge, pivot or bi-fold & infold doors.
